

Earth Mats and Grids

Earth Mats and Grids

Sandart: IEC EN 62305 / IEC EN 62561

Hermes solid copper lattice mats and grids offer a more economical cost option to installing solid copper plates. They are often used for potential grading and are a preferred option on installations such as telecommunication towers, where touch and step potential could cause problems.

Part Number	Product Description	Material	Dimensions in Millimeter	Unit Weight
HRT 31301	Earth Grid	Copper	500x1000x2	1,450
HRT 31305	Earth Grid	Copper	1000x1000x2	2,800
HRT 31413	Earth Mat	Copper	600x600x3	4,000
HRT 31415	Earth Mat	Copper	900x900x3	7,200
